OBJECTIVE

Motivated BS Computer Science student at NUST with strong foundations in software engineering, information security, blockchain concepts, and software development. Seeking opportunities to apply technical skills and contribute to impactful projects.

EDUCATION

Bachelor of Science in Computer Science

2024 – 2028 (Expected)

National University of Sciences and Technology (NUST), Islamabad

CGPA: 3.47

Relevant Coursework: OOP, Data Structures and Algorithms, Databases, Information Security, Artificial Intelligence, Computer Networks

SKILLS

Programming Languages: C++, Java, C#, Python, Solidity, JavaScript

Frameworks & Tools: .NET, JavaFX, SQL, React, Git/GitHub

Soft Skills: Communication, Problem Solving, Teamwork, Adaptability, Analytical Thinking

PROJECTS

Fake Medicine Detector (OOP Project)

Designed and implemented an object-oriented system to classify genuine vs. fake medicines using OOP principles like inheritance, composition, and encapsulation.

Quiz Management System

Developed a complete JavaFX-based quiz management platform integrated with MySQL for mathematics Olympiad quizzes at The Punjab School.

Portfolio Website

Built a personal portfolio website using React and Tailwind CSS to showcase projects, skills, and professional background. Live at: <https://kaghazi12.github.io/gulraiz-portfolio/>

Blockchain-Based Voting System

Explored decentralized voting mechanisms using Ethereum smart contracts. Analyzed feasibility, gas costs, and security implications of on-chain voting.

EXTRA-CURRICULAR ACTIVITIES

- Active involvement in university-level programming and security-related projects.
- Independently study blockchain, ML fundamentals, and system design.
- Assist peers with emails, applications, and academic communication.

HOBBIES & INTERESTS

Blockchain, Machine Learning, Software Engineering, Systems Programming
